

**DIGITAL INFORMATION SHARING**  
BETWEEN ASEAN AND SOUTH KOREA  
FOR RAPID RESPONSE TO GLOBAL DISEASE PANDEMIC

# AIDA Platform

Implementing CKAN open data portals.

# Publish Data

- Publish functionality covers the whole area of creating and editing datasets and resources, including data upload.
- Publish flows

1. Dataset create

2. Add resource(s)

# Overview Deck : 1. Dataset create (1/3)

1. After logging in,  
press the " Add Dataset "

 Add Dataset

2. The system will display a screen for details of Dataset  
\* Please fill in only the information with a red star (\*)

1 Create dataset

\* Data Type  :

Record Data

\* Dataset Name  :

eg. A descriptive title

\* URL: aida.informatics.buu.ac.th/dataset/<dataset code> 

\* Organization  :

Korea Institute of Science and Technology Information (KISTI)

Visibility  :

Public

\* Contact Person  :

Organization name

\* Contact Email  :

department@org.go.th

2.1 Dataset Name : Name of dataset (maximum 150 characters)

2.2 Organization : The name of the organization or entity that owns this dataset and has updated the data resource.

2.3 Visibility : What access does your organization allow to this dataset?  
\*\*\* The dataset should be public, but the files in the dataset should be private

2.4 Contact Person : Name of the division, office or department assigned to be responsible for the data.

2.5 Contact Email : Email address of the department, office or division that is assigned to be responsible for the information.

# Overview Deck : 1. Dataset create (2/3)

## 2. The system will display a screen for details of Dataset

\* Please fill in only the information with a red star (\*)

\* Tags ⓘ :

eg. economy, mental health, government

2.6 Tags : Keywords, phrases, or tags in formal datasets have specific meanings for search purposes.

\* Description ⓘ :

eg. Some useful notes about the data

You can use [Markdown formatting](#) here

2.7 Description : A brief description of the key details of the dataset (no more than 1000 characters) such as definition, what the dataset is about, how it is stored, who the target audience is for the data.

\* Objective ⓘ :

- ☐ National strategy
- ☐ National Economic and Social Development Plan
- ☐ Master plan under the national strategy
- ☐ To provide public service
- ☐ International Index/Indicator
- ☐ Don't know
- ☒ other

2.8 Objective : Explain the origin and purpose of the dataset.  
\*Select "Other" and fill in the purpose.

Research objective

2.9 Update Frequency Unit : Frequency of dissemination to users, such as year or month

\* Update Frequency Unit ⓘ :

-

# Overview Deck : 1. Dataset create (3/3)

## 2. The system will display a screen for details of Dataset

\* Please fill in only the information with a red star (\*)

\* Geo Coverage ⓘ : \_\_\_\_\_  
2.10 Geo Coverage : The granular classification of spatial data in data storage  
-

\* Data Source ⓘ : \_\_\_\_\_  
2.11 Data Source : The source of the data used to compile the data set, along with the name of the agency or organization that compiled it.  
แหล่งที่มาของข้อมูลที่ทำมาจัดทำชุดข้อมูล

\* Data Format ⓘ : \_\_\_\_\_  
2.12 Data Format : In what format is the data stored, such as a database, file, or message?  
☐ Database  
☐ CSV  
☐ XML  
☐ Image  
☐ Video  
☐ Audio  
☐ Text  
☐ PDF

โปสเตอร์

\* Data Category ⓘ : \_\_\_\_\_  
2.13 Data Category : Select "public data"  
Public data

\* License ⓘ : \_\_\_\_\_  
2.14 License : Indications of the scope of data use under the agency's terms of use must be in accordance with the type of data license agreement.  
License not specified

3. Press the "Next: Add Data" button to go to the next step.

Next: Add Data

# Overview Deck : 2. Add resource(s)

## 4. The system will display a screen for details of File

New resource

File:

Upload

Link

\* Name i :

eg. January 2011 Gold Prices

Description i :

Some useful notes about the data

You can use [Markdown](#) formatting here

การเข้าถึง i :

Private

Add

4.1 File : Select a file or enter a link to a data file.

4.2 Name : Name of the resource (maximum 150 characters)

4.3 การเข้าถึง : What access does your organization allow to this file?  
\*\*\* The files in the dataset should be private

5. Press the "Add " button to finish.
